KING OF SPADES

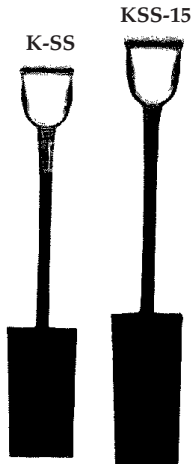

5 Year Guarantee Against Breakage

At last, the innovator of spade technology has developed,
The Ultimate Spade!
Test it now and
stop torturing yourself!

1. The large tubular steel **D-Handle** is 4" wide inside with a 1 1/4" diameter handle.
2. The main shank is **zinc plated aircraft tubing**, therefore making it **super strong, rust resistant, smooth and lightweight**.
3. Our **blade** and **handle connector** on the KSC model enables you to change blades as they wear out, allowing the maximum life from the **virtually indestructible handle**. The **cost savings** can be enormous.
4. Long tapered **cutting edge** is applied before heat treating. This provides the blade with an edge that resists dents and nicks from hard digging conditions. It also provides a cutting edge that is virtually self-sharpening during use.
